

Dear Soba Team,

I hope this message finds you well and does not cause any inconvenience.

My name is Taisia Malakhova, and I am a Game Design student at the "University of Europe for Applied Sciences" in Berlin, currently in my 4th semester. As a part of my program, I am required to complete a mandatory 16-week internship next semester.

Throughout my studies, I've gained hands-on experience in multiple areas of game development, including 2D/3D Art, Animation, UI Design, Concept Art, Narrative Design, Character Design, C# Programming, and Visual Scripting. To refine these skills, I've contributed to over 20 game projects, which strengthened my adaptability and collaborative mindset.

Over time, I've focused my passion on the artistic aspects of games—particularly 3D Art and Character Design—where I thrive in creating visually engaging and functional experiences. I'm very much motivated to learn from your team and contribute fresh ideas, and I believe an internship at your company would be the ideal opportunity to grow in these areas.

Besides that, I have experience in Communication Design and Events Organizing. This year, I have contributed, as a Lead of one of the departments, to organizing an exhibition at the biggest gaming festival in Berlin. This experience helped me a lot in strengthening my skills, for instance decision making and communication. In addition, I speak 3 languages: English, German and Russian.

Thank you, a lot, for your time and consideration, I am very much looking forward to hearing back from you.

Warm regards,

Taisia
